Dune HD Max

While it is a fact that small and compact players rule the market, the bigger players bring more flexibility and utility to the game of home-entertainment. The Dune HD Max, apart from being a highly efficient HDD media player, houses a full fledged Blu-ray drive and can also be connected to the network. The product's ease-of-use, compatibility with other home-theatre components and reasonable pricing makes it a universal player and a sure shot winner.
